INTRODUCTION

Selected Financial Data is prepared annually from information reported by each of the 24 Maryland local education agencies (LEAs) in the Annual Financial Reports. These reports, authorized under the Education Volume of the Annotated Code, Section 2-205, Section 5-109 and Bylaw 13A.02.01.03, dictate a uniform format for reporting LEA finances to the Maryland State Department of Education. A manual entitled the Financial Reporting Manual for Maryland Public Schools was developed to further define the reporting requirements as contained within the law and to enable a collection of financial data which will conform to both federal and state reporting requirements. Following are an overview of reporting conformities and definitions of terminology used throughout this series.

FINANCIAL REPORTING IN BRIEF

LEAs are legal entities which exist to operate schools or contract for educational services. In Maryland, these school units are coterminous with the boundary of the political subdivision; i.e., the 23 county governments and the Baltimore City government. These school systems have no taxing powers and must compete with other county or city agencies for funds to provide educational services. Local funds for education are made as appropriations for specific purposes; and to assure that these purposes are adhered to, separate funds must be maintained to account for the monies. Maryland LEA's maintain a minimum of 6 funds in addition to a special account for keeping track of fixed asset.

Revenues for each fund are provided from federal, state and local sources. It is important to note that federal revenue is recognized as it is spent or encumbered not as it is received; and, therefore, is not equal to the appropriation. Following are a list of the funds and a brief description of each:

(1) The Current Expense Fund contains all accounts for general, routine current operations. Maryland presently has 12 categories into which current expenses are reported - Administration, Instruction, Student Personnel Services, Health Services, Student Transportation, Operation of Plant, Maintenance of Plant, Fixed Charges, Food Services, Community Services, Special Education and Capital Outlay. Some of these categories are further divided into specific functions, but each of the categories require some or all of the following object of expenditure details: salaries and wages, contracted services, supplies and materials, other charges, replacement and additional equipment, and outgoing transfers. Subobject details are required for specific accounts; and expenditures for the categories of Instruction, Special Education and Administration require details to isolate expenditures for particular services, e.g. business support services versus centralized support services, regular instruction versus expenditures for gifted and talented students, and itinerant special education services versus expenditures for resource rooms.

The Current Expense Fund is separated into two parts. The first part consist of all expenditures from sources of money which are unrestricted for use, such as local appropriations and most state aid. The second part, consisting of expenditures which are restricted for use, requires separate expenditure reporting to account for how expenditures were made for each grant and to assure that money was spent in accordance with the categories/objects defined in the Financial Reporting Manual. These expenditures are combined with unrestricted expenditures to produce a consolidated report of all current expenditures. Additional information about federal fund expenditures can be found in a release entitled Federal Program Expenditures Report, annually published by the Maryland State Department of Education.

(2) All transactions relating to major school construction or remodeling are accounted for in the School Construction Fund as follows: purchase of sites, site improvements, building additions, remodeling, additional equipment, and other construction expenditures. In Maryland, the State has the responsibility of funding school construction but local school systems may supplement these funds to provide facilities in excess of those which are state approved.

(3) The Debt Service Fund accounts for the systematic repayment of principal and interest on debt. Although Maryland LEA's do not have the authority to issue bonds for school construction, they may be responsible for handling repayment of debt.

(4) The Food Service Fund accounts for operations required to provide meals to students and staff in schools; i.e., operating kitchen equipment, preparing and serving food, cleaning and storing equipment, and delivery services.

(5) The Student Activities Fund accounts for funds which are owned, operated, and managed by the student body under the guidance of the LEA staff, e.g., extracurricular activities, school stores, etc.

(6) The Trust/Agency Fund accounts for assets for which the LEA is trustee or agent.

HISTORICAL CONTINUITY

Due to Maryland General Assembly decisions, federal legislation and accounting policy changes initiated by the AICPA and NCGA which impact annually upon the reporting requirements for the school systems, historical continuity in reporting becomes difficult. One such change became effective for the 1983 fiscal year when salaries and wages for supervisors of Instruction and all those employed in services which enhance instructional programs for regular pupils were pulled from the category of Instruction and moved to the category of Administration. Because the impact of such a reporting change is so startling, those expenditures have been separately identified in Selected Financial Data, Part II, Table 5.

Expenditures for educating students with special needs were separated from expenditures for educating regular students in 1981 when Category 13, Special Education, was added. Therefore, when comparisons of expenditures for Instruction are made for years prior to 1981, it will be necessary to add Special Education expenditures to instructional expenditures. For the years after 1983, not only must Special Education be added, but the expenditures now reported in Administration for School Instructional Support must be added as well.

Other minor reporting changes have occurred over the past several years. Briefly, two categories were eliminated and expenditures transferred to other areas, and one category was abbreviated. Expenditures for Student Body Activities are now Cocurricular Activities under Instruction, and Outgoing Transfers is an object of expenditures to be reported in the appropriate category rather than a separate category. The category of Food Services, under which expenditures of local dollars for Food Service Supervisor and his/her staff are budgeted, now has only one object of expenditure-interfund transfers. All Food Service expenditures are reported in detail in the Food Service Fund and shown in Selected Financial Data, Part II, on Table 11.

It should be noted that many of the financial details which the LEA's report are not regularly included as a part of our annual public information releases. If you have specific needs for information not contained with Selected Financial Data, we would like to hear from you to determine if we can provide the specific information you desire. Questions regarding this information, may be addressed to Kathie Hiatt at 333-2664.

DEFINITIONS

Administration refers to an expenditure category for reporting the general regulation, direction, and control of LEA and the LEA instructional programs. Activities in this category affect the LEA as a whole, not the administration of a single building or narrow phase of school activities and generally refer to LEA activities involving the formulation and execution of educational or financial policy.

Assessed Property Valuation is the valuation of property as determined by the State Department of Assessments and Taxation.

Average Daily Attendance is computed by dividing the sum of the days present of all students in the school system by the total number of days that schools are in session in given a school year. When cost per pupil data are based on ADA, kindergarten students who attend for only one-half day are counted as one-half student. ADA so adjusted is referred to as equated ADA.

Average Number Belonging is computed by dividing the sum of the days present and absent of all pupils in the school system by the total number of days that the schools were in session. When cost per pupil data are based on ANB, kindergarten pupils are counted one-half when they attend school for only one-half day.

Bonded Debt is the part of the local unit debt which is covered by outstanding bonds.

Capital Outlay is an expenditure which results in the acquisition of a fixed asset or an addition to fixed assets.

Community Services are services other than those for public schools and adult education which are provided by the school or local unit for the community as a whole or some segment of the community; e.g., community recreation programs, civic activities, public libraries, programs of custody and care of children, etc.

Debt Service refers to expenditures for the debt principal and interest, excluding principal and interest on current loans. Obligations incurred by the State of Maryland for construction of public schools are excluded.

Federal Funds are funds received from the federal government either directly or indirectly (as is the case with most monies which are given to the Maryland State Department of Education and distributed to the LEAs by any of several methods.)

Fixed Assets are land, buildings, machinery, furniture, and other equipment which the local unit intends to hold for an extended period.

Food Services are activities involved with the preparation and serving of regular and incidental meals, lunches, or snacks for school activities, and the delivery of food.

Fund is an independent accounting entity with its own assets, liabilities and fund balances, and is established to account for financing specific activities of an agency's operations.

Health Services are physical and mental health activities which provide pupils with appropriate medical, dental, and nurse services.

Instruction refers to activities dealing directly with the teaching of regular pupils either in the school classrooms or in any other location, including expenditure for cocurricular activities, the office of the principal, guidance and psychological services and school media service.

Local Appropriation is money received out of funds set aside by the County Commissioners or County/City Council for a special purpose, such as education.

Local Education Agency (LEA) is the basic administrative unit which exists primarily to operate schools. In Maryland, the LEAs coincide with the political subdivisions i.e., the 23 counties and Baltimore City.

Maintenance of Plant refers to activities concerned with keeping the grounds, buildings and equipment in the original condition of efficiency or completeness either through repairs or replacement of property. Since expenditures for replacement equipment are a subobject within each category of expenditure, all replacement equipment has been removed from each category and reported within this category in Selected Financial Data.

Operation of Plant consists of keeping the physical plant open and ready for use, including cleaning, disinfecting, heating, moving furniture, caring for grounds, operating telephone switchboards, and other activities which are repeated regularly.

Revenue means an addition to an asset which does not increase any liability, does not represent the recovery of an expenditure, does not represent the cancellation or decrease in assets, and does not represent contribution of fund capital in Food Service and Student Body Activity funds.

Special Education consists of activities designed for students who, through appropriate assessment, have been determined to have temporary or long-time special education needs arising from cognitive, emotional, and/or physical factors.

Student Personnel Services consists of attendance services, social work services or student account service which are designed to improve the student's attendance at school and prevent or solve student problems at home, the school, or in the community.

Student Transportation involves the coveyance of pupils to and from school activities as provided by State law, including trips between home and school or trips to school activities.

Table of Contents

Table	Title
1	Revenue from all Sources: Maryland Public Schools: 1986-87
2	Revenue from all Sources for Current Expenses: Maryland Public Schools: 1986-87 (Includes Teachers' Retirement and Social Security Paid Direct by State)
3	Revenue from all Sources for Current Expenses: Maryland Public Schools: 1986-87 (Excludes Teachers' Retirement and Social Security Paid Direct by State)
4	Revenue from all Sources for School Construction: Maryland Public Schools: 1986-87
5	Revenue from all Sources for Debt Service: Maryland Public Schools: 1986-87

6 Staff Employed In Instructional Function: 7-12: Maryland Public Schools: October, 1987

7 Staff Employed In Noninstructional Functions: Maryland Public Schools: October, 1987

APPENDIX

A Enrollment in Maryland Public Schools: September 30, 1987 (Equated Enrollment (Col. 4) Used in Calculating Staffing Ratios in Table 1)

INTRODUCTION

The following Tables were prepared from the Staff Reporting System, a computer database developed by the Maryland State Department of Education's (MSDE) Office of Management Information Systems (OMIS). Local Education Agencies in Maryland report these data to OMIS on magnetic tape in November of the current school year for staff members who are active as of October 15. Staff are further reported in the category in which they are budgeted in accordance with the Financial Reporting Manual for Maryland Public Schools. Hourly and contractual employees are excluded from the report.

The tables include the full-time equivalent (FTE) number of staff who are employed in the instructional and noninstructional functions at the local level. As in the past, the ratio of the number of instructional staff per 1,000 students in Grades Prek-12 including school level administrators has been included in this publication.

The compilation of these data were made possible by the excellent cooperation of local education agencies who strived for completeness and accuracy in submitting the reports.

Professional Staff by Assignment, Race and Sex
Maryland Public Schools
October, 1987

Maryland State Department of Education
Office of Management Information Systems
200 W. Baltimore St. Baltimore, Maryland 21201
Omis 04110 (R)104-03/88

Introduction

The following tables present the distribution of professional staff employed in Maryland public schools by assignment, race ad sex. The tables were compiled from data provided by local school systems in the fall of 1987. Staff members are reported by head count in their major area of responsibility. The tables include full and part-time staff who were employed as of October 15, 1987.

Figures 1 through 8, present a graphic illustration of the distribution of males and females employed in local school systems. They are further distributed by white and non-white racial categories.

Tables 1 through 9 present the number and percent of professional staff at school and central office levels in each local school system. Tables 2 through 2c present the central office staff and tables 3 through 9c include staff at the school level.

Listed below are a few highlights from the tables and charts which follow:

- Females make up over 71% of the professional staff in Maryland public schools

- Over 60% of the principals are males.

- Over 70% of the Superintendents, Associates and Assistant Superintendents are white males.

- Minorities represent approximately 23% of the total staff.

- Minorities males make up less than 5% of the total staff.

Introduction

Federal educational funding has decreased significantly over the past years. In 1977, Maryland schools received more than 8 1/2% of the cost of education from federal sources. This level remained stable until 1982 when funds fell sharply and federal support accounted for only 6.4% of the total education budget. By 1987, federal support had decreased to a low just over 5%.

Table 1-13, contains details about currently funded programs. Local Education Agencies are required to report expenditures for each grant according to the budget categories specified in state law. These data are collected annually by the Maryland State Department of Education as part of the Annual Financial Report. Because state and federal definition of instruction and administration differ, expenditures are provided in enough detail to meet either set of definitions.

_Table 14-16 reveal that although federal funding has increased since 1982, it has not yet reached the dollar amount provided in 1981. When adjusted for inflation, federal revenue is well below the 1981 level of support. In spite of the drop in federal support for education, total support for education has increased.

For additional information, contact the Statistics & Reports Section of the Office of Management Information Systems.

Table of Contents

Table	Title
	Preface
1	Revenue from All Sources for Current Expenses, School Construction and Debt Service in Thousands of Dollars: Maryland Public Schools: 1977-78 - 1986-87
2	Revenue from All Sources for Current Expenses: Maryland Public Schools: 1977-78 - 1986-87, (Thousands of Dollars)
3	Revenue from the State for Current Expenses: Maryland Public Schools: 1977-78 - 1986-87, (Thousands of Dollars)
4	Revenue from the Federal Government for Current Expenses: Maryland Public Schools: 1977-78 - 1986-87, (Thousands of Dollars)
5	Total Current Expenses*: Maryland Public Schools: 1977-78 - 1986-87
6	Expenditures from All Sources for Current Expenses, School Construction, and Debt Service in Thousands of Dollars: Maryland Public Schools: 1977-78 - 1986-87
7	Expenditures for Instruction*: Maryland Public Schools: 1977-78 - 1986-87
8	Expenditures for Special Education:* Maryland Public Schools: 1980-81+ - 1986-87
9	Expenditures for Instructional Salaries:* Maryland Public Schools: 1977-78 - 1986-87
10	Expenditures for Materials of Instructions:* Maryland Public Schools: 1977-78 - 1986-87
11	Expenditures for Textbooks:* Maryland Public Schools: 1977-78 - 1986-87
12	Expenditures for Library Books: Maryland Public Schools: 1977-78 - 1986-87
13	Expenditures for School Construction and New Equipment in Thousands of Dollars: Maryland Public Schools: 1977-78 - 1986-87
14	Cost per Pupil Belonging for Current Expenses:* Prek-12 +: Maryland Public Schools: 1977-78 - 1986-87 (Including State share of Teachers' Retirement and Social Security)
15	Cost Per Pupil Belonging for Instruction, Maryland Public Schools: 1977-78 - 1986-87
16	Assessed Valuation Taxable at Full Rate for County Purposes in Millions of Dollars: State of Maryland: 1977-78 - 1986-87
17	Assessed Valuation per Pupil Belonging: Prek.-12:* State of Maryland: 1977-78 - 1986-87
18	Percent of Local Revenue* Appropriated to Maryland Public Schools: 1977-78 - 1986-87
19	Local Appropriation for Maryland Public Schools as a Percent of Assessed Valuation plus Net Taxable Income: 1977-78 - 1986-87

Table 1

CHARACTERISTICS OF PROFESSIONAL STAFF EMPLOYED IN MARYLAND PUBLIC SCHOOLS

OCTOBER, 1987

MARYLAND STATE DEPARTMENT OF EDUCATION
OFFICE OF MANAGEMENT INFORMATION SYSTEMS
200 W. BALTIMORE ST. BALTIMORE, MD 21201

OMIS-04110-(R)103-7/88

INTRODUCTION

The following tables present the characteristics of professional staff employed in Maryland public schools as of October, 1987. The data were obtained from two sources: employment records provided to the Office of Management Information Systems from local education agencies in Maryland and teacher certification records maintained by the Division of Certification and Accreditation.

Tables 1a through 1h present the number and percent of staff by the highest type of degree held. Tables 2a through 2h present the number and percent of staff by the total years of teaching experience. Tables 3a through 3h present the number and percent of staff by the type of certificate currently held.

Characteristics of new hires are shown on separate tables throughout the report. Persons who transferred between local education agencies in Maryland are excluded from the total new hire count for the state, but are included in the count of new hires for the local education agency.

Included in this report are principals and assistants, teachers, librarians, guidance counselors and psychologists who are employed on a regular contract. Substitutes and hourly employees are excluded.
